Solution Identification Board Game: Goals

- **Goal:** Work as a team to identify potential solutions to community identified issues

How to Play

- A player will be selected to propose the first solution or combination of solutions
- The player on their right will provide the advantages of the solution(s)
- The player on their left will provide the disadvantages of the solution(s)

How to Play

EXAMPLE:

- At an issue, the proposer must solve it using the provided *Toolbox of Solutions*. The proposer may choose one solution or a combination of solutions.

How to Play

- The remainder of the group will vote “yes” or “no” as to whether they agree with the proposed solution.
- The group advances to the next space if they get the majority vote.
- This process will be repeated for each issue space until the team reaches the finish line.
